This month we are looking at the community of Mosheim. This community, formerly called Live Oak, is located 7 1/2 miles west of Valley Mills in southwest Bosque County and is at the crossroads of FM 217 and FM 215. The first store in the community was built in 1886. The post office came in 1887 when the U.S. Postal Service changed the name to Mosheim. Mosheim has been home to several businesses, Methodist and Baptist churches, and even a

school. The old school pictured is in need of repair and is now up for sale. The number of residents was as many as 200 in the late 1960s and then fell to around 75 after the post office closed in 1976. The old store is remembered for having the best sandwiches and coldest drinks available for miles around. Many fond memories are still there in those hot, dusty fields around Mosheim.

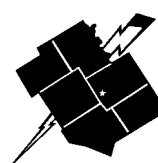

You know co-op employees when you see them. They are at ballgames, community activities, and are always helping others. They do this because they are part of the communities they serve.
